T Capital Partners Co., Ltd.

Establishment of T Capital Innovations Co., Ltd.

T Capital Partners Co., Ltd. (“TCAP”) is pleased to announce the establishment of a new company, “T Capital Innovations Co., Ltd.” (“TCI”), dedicated to driving transformation and growth for small and medium-sized enterprises (“SMEs”).

■ Background of the Establishment

The Japanese economy is undergoing significant structural changes, including a declining population, labor shortages, an increasing need for business succession, supply chain reconfiguration, and the increasing sophistication of capital investments.

Amid these changes, many SMEs—despite possessing strong technologies and solid customer bases—have yet to fully realize their growth potential due to constraints on management resources and organizational structures. Furthermore, in recent years, the private equity market has seen a trend towards larger fund sizes, resulting in a growing number of attractive investment opportunities in the small-cap segment that are often overlooked due to size constraints.

Against this backdrop, the TCAP group has established TCI as a new platform for value creation, leveraging its accumulated investment track record, network, and strong foundation of trust.

[Overview of TCI]

Company Name	: T Capital Innovations Co., Ltd.
Address	: 1-1-1 Otemachi, Chiyoda-ku, Tokyo
Representative	: Akinori Nishida, Representative Director & President
Business Description	: Management and operation of private equity funds

■ TCI’s Vision

TCI aims to enhance corporate value and achieve sustainable growth by acting not only as a capital provider but also as a hands-on partner that works alongside management teams to drive transformation.

While based on traditional investment methodologies, TCI adopts a differentiated model that integrates investment with active operational support. A key focus is on empowering portfolio companies to strengthen their own capabilities and grow independently.

In addition, by leveraging the TCAP group's network and expertise, TCI seeks to create broader value through collaboration not only with portfolio companies, but also with management talent and a diverse range of stakeholders.

■ Future Initiatives

As a specialized investment platform specializing in the small-cap sector, TCI plans to launch its inaugural fund, for which TCI will serve as the general partner.

TCI is committed to exploring new possibilities in small-cap investing and delivering meaningful value to portfolio companies, investors, and society.
