To whom it may concern:

Announcement of Investment in KEC Corporation

TOKIO MARINE CAPITAL CO., LTD. (TMC) today announced that TMC BUYOUT 9 Co., Ltd., a company held by TMCAP2011 limited partnership, an investment fund managed by TMC, acquired shares of KEC Corporation (KEC).

KEC, a system integrator which operates systems of robotic devices and jigs, contributes to the factory automation of various production fields, with the welding processes of automakers' new lines as its main target. Specifically, KEC provides automobile companies with integrated manufacturing lines that include industrial robots and control devices joined together, and system construction.

TMC intends to fully support its management and provide expertise and knowledge in businesses to expand the corporate value of KEC Corporation.
